

if it's diesel injection or turbo  
**DENCO DO IT.**

**+ DIESEL PUMPS  
& FUEL INJECTION**

## **+ OUR HISTORY.**

Denco Diesel began operations in 1970 as a diesel fuel workshop. Denco Diesel and Turbo are 100% Australian owned and operated.

Our experienced fuel injection workshop is an authorised service dealer for Bosch and Denso, Delphi, Zexel and Stanadyne.

Using the very latest test equipment, we can quickly and accurately diagnose and service

most models of fuel pumps, governors and Electronic Diesel Controlled fuel systems.

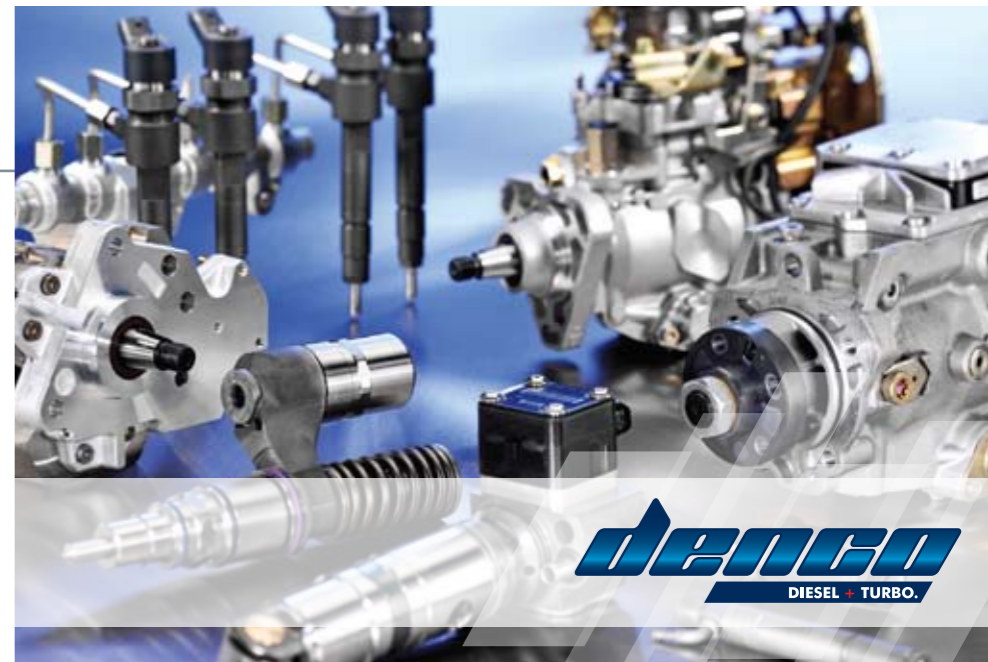

We are foundation members of the Association of Australasian Diesel Specialists (AADS).

We are distributors for Borg Warner and Garrett turbochargers and stock parts for most other makes.

## + FUEL INJECTION SERVICE.

Today, diesel fuel injection is an exacting industry, keeping pace with the ever increasing demands of modern vehicle manufacturers'.

The latest release fuel pumps require a large investment in knowledge, skill and equipment. Denco Diesel have met these demands and satisfied the exacting standards of industry leaders Bosch and Denso.

Trained by original equipment manufacturers, our technicians repair and test pumps, governors and EDC equipment. Our factory - trained technicians use the latest computerised and Bosch certified test benches. Performed in a dust free environment, our testing and repair procedures ensure reliable results.

Our modern workshop features ensure fast and accurate fuel calibration. It allows us to

service all makes and models from 1-cylinder mechanical fuel pumps to state of the art common rail systems. This translates into considerable time and cost savings.

We carry a large variety of quality exchange pumps. Parts are also covered by our generous 12-mth warranty. Our large stock of parts means that vehicles not covered by our exchange program can be serviced without delay.

## + INJECTOR SERVICE.

Is downtime a problem? Save time and money by utilising our large range of exchange injector product to suit popular 4WD vehicles.

All reconditioned exchange injectors use new genuine nozzles and are set to manufacturers' specifications to ensure quality standards are achieved. That's why we offer an impressive 12-mth parts and labour guarantee.

If exchange units are not available, we offer fast turn around on your own injectors, whether it's a simple clean and reset or complete overhaul. Pre ordering of nozzles can also save you time in repairing uncommon models.

With late model vehicles two stage injectors are increasingly popular. Denco has a large range of service tools and shim kits to repair these products to exacting standards.

## + COMMON RAIL.

Denco stock a large range of exchange common rail products to suit a variety of popular vehicles. Exchange pumps reduce downtime and are repaired in our new state of the art clean room and tested using the latest technology to ensure quality standards are met.

As an authorised Denso repairer, warranty assessment can be performed in accordance to manufacturer specifications by Denso trained technicians.
